SmartWebshop

We offer a simple, user-first, mobile responsive webshop for your gift card business. It is standardised and will be added to www.smartgifty.com to give you another channel of promotion.

COST EFFICIENT
AND
STANDARDIZED

The layout of the online store is standardized. The online store adapts to the customer with customisation of photos, colors and copy. The website is designed with a user-first mindset. It is simple and has one purpose > to sell the customer's gift cards.

The website is ready to sell classic and e-gift cards with several designs. Language change is possible, but only 2 language versions per customer (careful with currencies) are available. The website is already connected to the SmartGifty system, so you can save a lot of time and money.

We take care of hosting, back up and updates. Purchase documents are stored on Amazon servers.
